Quality care with you at the center

Our doctor-led care teams at Kaiser Permanente work together to help keep you healthy by delivering high-quality, personalized care.

Great care from great doctors

Doctors at Kaiser Permanente come from some of the top medical schools, and many of them have practiced at leading hospitals across the country. No matter which personal doctor you choose, you'll be in highly skilled, experienced hands – and your health is their chief concern.

Choosing a doctor – your partner in health

We make it easy to find the doctor who's right for you – and you're free to change doctors at any time, for any reason. Having a good relationship is important because your personal doctor is your biggest health advocate, and you'll work closely together to make decisions about your health.

One stop for many services

Most of our medical facilities have many services under one roof, so you can see your doctor, get lab services or X-rays, and pick up a prescription – all in the same trip.¹

Better care with a connected team

Your doctor, nurses, and other specialists all work together to help keep you healthy. At Kaiser Permanente facilities, they're connected to each other, and to you, through your electronic health record. So they know important things about you and your health – like when you're due for a screening and what medications you're taking. That way, you get care that's tailored for your individual needs.

Personalized care for all patients

Care at Kaiser Permanente isn't one-size-fits-all. We believe your story, background, and values are as important as your health history. To deliver care that's sensitive to all cultures, ethnicities, and lifestyles, we:

- Strive to hire doctors and staff who speak more than one language
- Offer telephone interpretation services in more than 150 languages
- Train our care teams on how to connect with and care for people of all backgrounds

Great care, great results

From preventive screenings that help keep you healthy to high-quality care if you get sick, Options POS has you covered.

Preventive care to help keep you healthy

Preventive care is key to how we practice medicine and support member health at Kaiser Permanente. It can help you avoid some health issues and catch others before they become serious.

That's why most of our plans cover preventive care with little or no out-of-pocket costs. And we send automatic reminders when you're due for your next screenings.

Specialty care when you need it

Preventive care can help keep you healthy, but we're also here for you if you get sick or need specialty care. You have access to excellent specialists locally and across the country, and you don't need a referral for most specialty care.

Your doctor will work with Kaiser Permanente if you need a specialist or procedure that does require preauthorization. Choosing in-network providers will also keep out-of-pocket costs lower.

When you need more choice, the Options POS out-of-network coverage gives you access to additional clinicians and hospitals in Washington state and across the country.

Support for ongoing conditions

If we're aware that you're struggling with a condition like diabetes or asthma, you may be automatically enrolled in a disease management program for personal coaching and support. Or you can ask to be enrolled.

With a well-rounded approach backed by proven best practices, we'll help you get the care you need to continue living life to the fullest.

A leader in clinical quality

Kaiser Permanente plans give you access to Washington Permanente Medical Group. Their leadership in clinical quality includes:

- One of the top-ranked medical groups in the state for 15 years in a row²
- Nationally Recognized Patient-Centered Medical Home for high-quality care focused on patients³
- One of only 17 medical groups in the country to receive the Acclaim Award for physician-led innovations⁴
